Dubai Silicon Oasis Authority

Established in 2004, Dubai Silicon Oasis Authority (DSOA) (www.dso.ae) is wholly owned by the Government of Dubai providing both a living and working integrated community. Silicon Oasis is a Free Zone Authority and provides free trade zone incentives and benefits to companies operating within the tech park.

Dubai Silicon Oasis' (DSO) spans 7.2 km². The Authority has made a large capital investment in its infrastructure to cater to the need of high tech industries in the free zone, this ranges from advanced telecommunications, a fibre optic network, tier 3 data centre with 120 high capacity racks, and a high-tech utility infrastructure with 8 power stations with a capacity of 1600 MW.

The technology park possesses a combined fire, water and irrigation supply system which is supported by a pump station and a 5000 m³ underground irrigation tank. A sanitary water network is also provided giving potable water supply of 44,525 m³ per day based on an estimated 162,400 population working and/or living at the Silicon Oasis.

In addition, DSO has a fully completed network of roads allowing quick in and out access to Dubai's major highways.

Advantages of Dubai Silicon Oasis Authority

The Dubai Silicon Oasis is located on E311, less than 30 minutes from Dubai Airport, Sharjah, Burj Khalifa and other business districts. It was launched in 2004 on a 600 hectare site.

From Desert to Luxury Living

To many Dubai is synonymous with home. In recent years, Dubai has emerged as a global city and business hub of the Middle East. In 2014, Dubai's hotel rooms were rated as the second most expensive in the world, after Geneva. Dubai was rated as one of the best places to live in the Middle East by American global consulting firm Mercer.

As of 2013, Dubai was the 7th most visited city of the world based on air traffic and the fastest growing, increasing by a 10.7% rate. Dubai has been called the "shopping capital of the Middle East". Dubai alone has more than 70 shopping centres, including the world's largest shopping centre, Dubai Mall. Dubai is also known for the traditional souk districts located on either side of its creek. Traditionally, dhows from East Asia, China, Sri Lanka, and India would discharge their cargo and the goods would be bargained over in the souks adjacent to the docks.

Developer

Time Properties LLC is a privately owned Real Estate development company located in Dubai, involved in all aspects of building spectrum from land acquisition, complete building design and engineering, construction through to full multi-channel marketing and sales.

The design and construction is catered by its other subsidiaries namely Hadi Consulting and Engineering and Square Meter Construction companies.

Time Properties LLC has been responsible for successfully launching and delivering some glamorous high-end residential towers at the Dubai Silicon Oasis, which in recent years has become a very desirable residential community.

From the outset, the company's mission has been to offer to its clients the best in terms of aesthetic design, quality construction and ideal value for money while implementing the highest professional practices. By employing such high business standards, Time Properties LLC has grown at a very rapid pace through its in-house divisions from land purchases, architectural designs, construction methods and marketing and sales team across the GCC.

"We are what we do repeatedly. Excellence, therefore is not an act but a habit". Aristotle.
